

Report of the Director of Awards and Incentives

Athletics Ontario Officials General Meeting November, 2016

This has been my third year as Director of Awards and Incentives. It was again, a huge learning experience.

I do want to apologize to the 4 officials who have not yet received their jackets. I have left numerous message for the gentleman who I have been dealing with over the past years but he is not answering phone calls, emails or texts. My last message to him was pleading to at least get these last 4 jackets delivered and then I would worry about the new orders when that happens. But to no avail.

So I am currently hunting for a comparable price from a couple of other companies who I hope can provide the same quality and same jacket.

You will be receiving individual emails to verify your years of service by the beginning of December. This way we can ensure that everyone is actually getting their proper years of service pin.

I think the volunteer pin is a very important message to each and every official that your time is for a great cause, that it is appreciated and that we do it because we love track and field.

Sincerely,

Sherry Purdie
